

MORO PHILLIPS'

Genuine Improved

SUPER-PHOSPHATE of LIME,

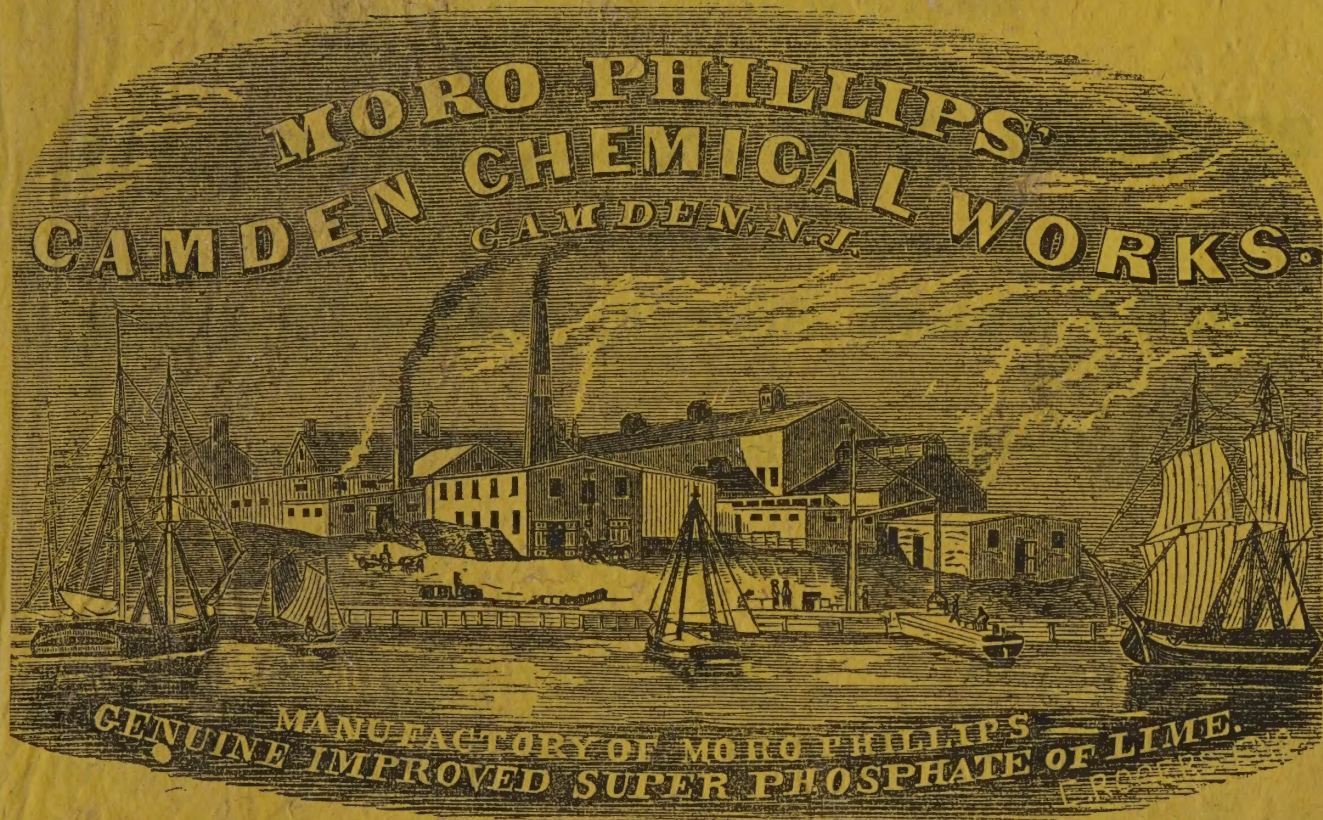

FOR SALE, WHOLESALE AND RETAIL, AT MANUFACTURERS' DEPOTS,

No. 27 North Front St.,

Between Market and Arch Streets,

PHILADELPHIA.

And No. 95 South Street, Baltimore, Md.

Take Notice that every Barrel and Bag is branded:

"MORO PHILLIPS"

GENUINE IMPROVED

Super-Phosphate of Lime.

THE STANDARD—GUARANTEED.

CHEMICAL WORKS, CAMDEN, N. J."

3 North Sixth St., Philad'a.

MORO PHILLIPS'

Genuine Improved

Super-Phosphate of Lime.

STANDARD GUARANTEED.

FOR SALE AT MANUFACTURERS' DEPOTS,

27 North Front Street, PHILAD'A,

AND

No. 95 South Street, BALTIMORE.

AND BY DEALERS IN GENERAL THROUGHOUT THE COUNTRY.

The material of which MORO PHILLIPS' PHOSPHATE is manufactured, contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The Ammonia present gives it additional fertilizing value.

Seven years' experience has proved to the Farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

MORO PHILLIPS

Sole Proprietor

FEBRUARY 31st, 1868.

MORO PHILLIPS'

Genuine Improved

SUPER-PHOSPHATE of LIME.

No. 27 North Front Street, Philadelphia.

No. 95 South Street, Baltimore, Md.

THE subscriber offers his SUPER-PHOSPHATE OF LIME to farmers and dealers with the assurance that it proves its superiority to other Super-Phosphates and Guanos offered for sale, by its uniform richness of composition, and by its quick and continued fertilizing effect on crops, which has created an extensive demand for it.

This article was not offered to the public until after long and continued experiments, having been thoroughly tested at every step by chemical analysis, and then practically tried on various soils, and on all kinds of crops.

It contains an unusually high per centage of *Phosphoric Acid*, of which a large proportion is immediately soluble, while its per centage of Ammonia gives additional fertilizing value, inducing rapid growth, and imparting to crops the indispensable nitrogen.

The Ammonia being fixed, will not waste by volatilization, and being soluble, is readily absorbed by plants, while rains can wash it no further down than to the rootlets of plants. My Super-Phosphate may therefore be used as a top dressing, be mixed with the soil, or in any way most convenient to the Farmer.

This Super-Phosphate, therefore, combines in itself the best qualities of all the natural and manufactured fertilizers offered in the market, and contains less moisture.

The ingredients of this Super-Phosphate are Bone Phosphate, Sulphuric Acid and Ammonia.

The basis of its preparation is a single material, of which the subscriber has the sole control, and he is a manufacturer of oil of vitriol, he does not spare this acid in order to render the article a *highly soluble* and more active Super-Phosphate. It is therefore a pure and unadulterated article, and as such the manufacturer is prepared to guarantee it.

Seven years' experience has proved to the Farmer that it is not only an active but a lasting manure, and has displaced other similar articles, although they had deservedly acquired a high reputation. Not that these last are inferior to what they formerly were, but the subscriber's Super-Phosphate is made from an article of superior quality, and without stinting the means of its improvement. So manifest has been its

superiority that its sales amount now yearly to many thousand tons, and it is sought for and used by the most intelligent Farmers.

My desire to maintain my high reputation as a manufacturer of acids and other chemicals, as well as the manufacturer of the best Super-Phosphate, is a safe ground of assurance that it will always be uniformly excellent;—and a further guarantee of uniformity is that it is always made in the same way, from one source, and that this source is unlimited in extent, and under my entire control. It will be my constant endeavor to improve the article, if that be possible, but I shall never allow it to fall below the high standard I have adopted.

The Proprietor had to overcome at first the great prejudice existing to Super-Phosphates in general, as there had been so many spurious articles in the market of late years, but he is happy to say he has succeeded in doing so, and the only way now to retain the returning confidence of agriculturalists, is to keep true to his promise and keep his Super-Phosphate to its standard.

The material of which MORO PHILLIPS' PHOSPHATE is manufactured contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable.

It is packed in bags containing 200 pounds each, and branded "MORO PHILLIPS' *Genuine Improved Super-Phosphate of Lime.*" The standard guaranteed. Manufactured at his Chemical Works, Camden, N. J. Depots, No. 27 North Front Street, Philadelphia. No 95 South Street, Baltimore, Md.

DIRECTIONS FOR USE.—When sown in the drill for Wheat or Rye, apply from 150 to 200 lbs. per acre.

For Wheat or Rye, sown broadcast, apply from 300 to 400 lbs. per acre.

When sown in the drill for Oats, apply from 100 to 150 lbs. per acre.

For Oats when sown broadcast, use 150 to 200 lbs. per acre.

For Corn—a handful to 3 hills; if sown broadcast, 250 to 300 lbs. per acre.

For Potatoes, use from 300 to 400 lbs. per acre.

For Grass, use from 200 to 300 lbs. per acre.

For Tobacco or Cotton, use 400 lbs. per acre.

Having during the past year more than doubled my Capacity for manufacturing. The Farmer may rest assured that in the future no effort will be spared to have the Phosphate in good condition for drilling.

CAUTION TO BUYERS.

Observe that my name and place of manufacture are on each and every package, none other being genuine. I will guarantee the quality of every package sold by me, and if any manufacturer or dealer should be induced, by the reputation of my article, to palm a spurious imitation of it on the public, it will be my business to detect and punish him. Should this book reach any parties who have sold or used, or who may hereafter use my Super-Phosphate, and should it not fulfill all it professes to do, they have full liberty to contradict my assertions, and I will cheerfully bear all expenses of the same.

MORO PHILLIPS,

Sole Proprietor and Manufacturer.

NEW JERSEY CERTIFICATES.

TITUSVILLE, N. J., January 28th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—In answer to your request of January 18th, we can say with pleasure that it gives perfect satisfaction in every instance; and goes before any other article in the line of patent manures that we can keep.

Yours respectfully,

FARLEY & BRO.

TRENTON, N. J., January 22d, 1866.

MR. MORO PHILLIPS.

Sir:—Having sold your Super-Phosphate of Lime last Spring and Fall, I would say it gives my customers entire satisfaction. Yours respectfully

J. J. JOHNSON

Late RUYNON & JOHNSON.

FRENCHTOWN, N. J., January 22d, 1866.

MR. MORO PHILLIPS.

Sir:—We have sold your Super-Phosphate of Lime for three years, and we take pleasure in stating it has given entire satisfaction to our customers—more so than any we have sold. Yours respectfully,

BRITTON & EDDY.

JAMESBURG, N. J., January 28th, 1866.

MR. MORO PHILLIPS.

Your Super-Phosphate of Lime has given good satisfaction in this neighborhood wherever used, and I will have some orders soon for you to fill.

Yours, &c., CHARLES P. MILLER.

PALATINE, N. J., February 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—In reply to yours of the 18th January, I would say that I have been using and selling your Phosphate for three years; it gives entire satisfaction and stands foremost in this neighborhood. I can sell ten tons of your Phosphate to one of any other kind. I intend hereafter to confine my sales to yours only. *I want no other.*

Yours respectfully, WILLIAM H. WARD.

PRINCETOWN STATION, N. J., January 27th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Having used and sold your Super-Phosphate of Lime for several years, I can unhesitatingly say, it has given the best satisfaction of any Phosphate, or patent manures in use in this section of country.

Yours respectfully, JOS. H. GROVER.

TRENTON, N. J., January 25th, 1866.

MR. MORO PHILLIPS.

Dear Sir: I have been selling your Phosphate of Lime a number of years, and believe it gives general satisfaction.

Respectfully yours,

GEORGE JAMES.

BRIDGETON, N. J., January 24th, 1866

MR. MORO PHILLIPS.

Sir:—I have sold your Super-Phosphate of Lime for several years past. It has given good satisfaction so far as I have heard of its effects.

Yours,

ROBERT J. BREWSTER.

WINDSOR, N. J., January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—In answer to yours of the 18th inst.,—I have tried your Super-Phosphate of Lime for several years past on my Potatoe, Oats, Corn, Wheat and Buckwheat Crops, and find it good.—one of the best fertilizers in use. I have sold it for several years past, and it has given general satisfaction. The most of my customers choose it in preference to any other.

Yours respectfully,

GEO. A. COLE.

YARDVILLE, N. J., January 24th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—According to your request, I cheerfully give you my experience of your Phosphate of Lime. I have sold it for several years, and it has given the best of satisfaction to all of my customers. I sold a great deal more last year than I ever did, and I think, by the farmer's talk, I shall be able to sell double the quantity this year. The wheat crop last year where the farmers used your Phosphate, was better than where they put the best manure. The farmers in this neighborhood are perfectly satisfied what your Phosphate will do. I am in hopes you will be able to fill my orders.

Yours respectfully, A. H. COLE.

YARDVILLE, N. J., February 9th, 1866.

MORO PHILLIPS.

Dear Sir:—In relation to your Super-Phosphate of Lime:—I have tried it for several years, and have found it the best fertilizer I can use. I tried it last year on my Wheat and Rye, and it looks fine; it has a nice top. I put it on some ground which has never raised anything but briers, and the Rye looks as well there as any part of the field, and just as nice as where I put on stable manure at the rate of 20 loads to the acre. I like it so well I shall want several tons more this year. I still remain your,

Respected friend, WILLIAM WILKINSON.

LONG-A-COMING, N. J., January 22d, 1866.

MORO PHILLIPS.

Dear Sir:—Yours of the 18th inst. came duly to hand, which affords me an opportunity of adding my own to the numerous other testimonials as to the excellence of your Super-Phosphate as a fertilizer, having both used it myself and sold it to others, securing, as I believe, entire satisfaction. I have heard much said in its favor by those who have thoroughly tested its fertilizing qualities.

Very respectfully yours,

J. L. THACKARA.

HIGHTSTOWN, N. J., January 20th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Having sold your Phosphate a number of years in this place, we are enabled to say, that it is now accepted universally as the standard by which all special manures are judged. The cases in which it does not give entire satisfaction are very *rare indeed*.

Very respectfully,

APPLEGATE & NORTON.

NEWPORT, Cumberland Co., N. J., January 22d, 1866.

MORO PHILLIPS.

Dear Sir:—As I have been dealing in your Super-Phosphate for some time, and finding that it gives *entire satisfaction* to those of our farmers who have used it during the past year, I hesitate not in recommending it as the *best fertilizer* in the market. The results in its application to the various crops have proved most satisfactory, and have placed it as the "*Ne Plus Ultra*" of all others. I have on hand also another Phosphate, but as yours is esteemed the best, I could sell two tons of it to one ton of the other, and I think that during the coming season there will be a great deal of your Phosphate used in this section of the State.

Very respectfully, &c.,

WILLIAM W. RILEY.

LUMBERTON, N. J., January 22d, 1866.

MORO PHILLIPS.

Dear Sir:—Since I have been selling your Phosphate of Lime, which I believe is about three years, I have made considerable inquiry of my customers of its effects upon the crops, and the reports are very flattering. It has given general satisfaction.

A gentleman by the name of STACKHOUSE bought of me, in the fall of 1864, one ton of your Phosphate as an experiment, never having used any before that time, he told me the next fall the wheat was as good as where he had put barn-yard manure side by side.

Yours respectfully,

F. C. DOUGHTON.

BORDENTOWN, N. J. 1 mo. 19th, 1866.

MORO PHILLIPS.

I received your inquiry about the benefit of your Phosphate in our place. I have used it myself with great benefit, and have sold to many of my customers, and have generally received good accounts of it as a fertilizer, and hope to be able to receive a supply for spring sales.

Respectfully yours,

J. E. TROTH.

MILLVILLE, N. J., 2d mo. 5th, 1866.

MR. MORO PHILLIPS.

Sir:—This is to certify that we have been using your Phosphate and selling it for five years past. We find it to give entire satisfaction to ourselves and our customers. We shall want a larger quantity this spring than usual.

Respectfully yours,

MULFORD & REEVES.

YARDVILLE, N. J., January 24th, 1866.

MORO PHILLIPS.

Respected Friend:—At your request I will say, that I have been dealing in Phosphates for years, but have never found any that I could rely on or that would compare with "*Moro Phillips' Genuine Improved Super-Phosphate of Lime.*" I have generally had good reports and satisfaction from it, and my sales increasing. I never hesitate in recommending it to my customers as being the best that I know for any crops. I have seen where it was used on round potatoes, a small handful to a hill, very satisfactorily, also on peas, a light sprinkling in the row, making a great difference in its favor.

Yours respectfully,

JOHN HARNED.

WOODSTOWN, N. J., February 1st, 1866.

Respected Friend:—Having sold your Super-Phosphate the last year, I have no hesitation in recommending it as a first-rate Phosphate. One bag being a sample of any amount. My customers express entire satisfaction in its action wherever tried. I am well pleased by my own experience in its reliability as an A No. 1 Manure.

Yours truly,

WM. F. LIPPINCOTT.

To MORO PHILLIPS, Esq.

BRIDGETON, N. J., February 3d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Having sold Moro Phillips' Super-Phosphate of Lime for the last four years, we can testify it has given general satisfaction. A party that used three tons last year says that it did as much good as Peruvian Guano ever did for him. We shall want another lot on the opening of navigation.

Truly yours,

DARE & MULFORD.

EXTRACT of Letter dated HIGHTSTOWN, N. J., Aug. 6th, 1866.

Please send Isaac Pullen two tons of your Super-Phosphate of Lime. Mr. Pullen has bought a great deal of your Phosphate for his own use, and he considers it the *best* and *cheapest* fertilizer in the market. His recommendation is worth considerable, as he has experimented with almost all the fertilizers that have been put on the market.

Yours truly,

THOMAS J. PULLEN.

To MORO PHILLIPS,

27 North Front Street.

ALLOWAYSTOWN, N. J., February 8th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have sold your Super-Phosphate of Lime last year, and so far as I have been able to ascertain, it has given entire satisfaction.

Yours, &c.,

RICHARD H. REEVES.

HOPEWELL, N. J., February 19th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—We have used your Phosphate of Lime with great satisfaction, and have sold largely of it to our customers, and have never heard any complaints of it. We sold upwards of fifty tons of it last fall.

Respectfully yours,

BLACKWELL, JEWELL & Co.

ENGLISHTOWN, N. J., February 3d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I have sold and used your Phosphate of Lime. It has given good satisfaction to myself and customers.

Yours truly,

JOHN M. RUE.

NEWTOWN, N. J., February 16th, 1866.

MR. MORO PHILLIPS.

We have been selling your Phosphate of Lime for a number of years. It is used extensively through this section of country by the Farmers, increasing their spring and fall crops; and it affords us pleasure in saying that it has given almost entire satisfaction. Your Phosphate has earned itself a standing reputation amongst our Farmers, as the yearly increase in our sales will show.

Respectfully yours,

YARD & APPEGET.

GEORGETOWN, D. C., January 19th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—In reply to yours of the 18th inst. asking "what satisfaction your Super-Phosphate gave my customers last year," I am pleased to say that it gave general satisfaction; and could you have supplied us in time for fall seeding, our sales would have been doubled. I tried it on my own farm on potatoes and corn, and made the best crop that I have ever had since I have been farming.

I am very respectfully your obedient servant,

F. L. MOORE.

MOORESTOWN, Burlington co., N. J., January 20th, 1868.
MR. MORO PHILLIPS.

Dear Sir:—I have used your Super-Phosphate, for two years, on Wheat and on Cabbage. It has given perfect satisfaction.

Yours truly, NATHAN S. ROBERTS.

MOORESTOWN, Burlington co., N. J., January 20th, 1868.
MORO PHILLIPS.

Dear Sir:—I have been using your Super-Phosphate of Lime for two years on my Wheat and Rye crops, and I am satisfied it is equal to stable manure. Also, the Grass is doing fine after the grain crops.

Yours most respectfully, HUDSON DUDLEY.

MOORESTOWN, Burlington co., N. J., January 20th, 1868.
MR. MORO PHILLIPS.

Dear Sir:—I have used your Super-Phosphate of Lime for two years, and have received great benefit to my Wheat crop. I think the same cost per acre, as manure, will make a larger crop. I expect to use more in the future.

Yours respectfully, JOSEPH C. ROBERTS.

COLUMBUS, N. J., January 27th, 1868.
MORO PHILLIPS.

Dear Sir:—I have used your valuable Phosphate for several years past, on Corn, Wheat and other crops. I have used it on Wheat, side and side with first-rate barn-yard manure. Where the Phosphate was put the Wheat was decidedly the best. I have for the last two years sold a considerable quantity of your Phosphate to farmers in my neighborhood, and I find, from inquiry, it has given great satisfaction, with no complaints whatever.

Yours, JOS. W. BIDDLE.

MOORESTOWN, N. J., January 20th, 1868.
MR. MORO PHILLIPS.

Dear Sir:—In reply to yours of the 17th, I would say, that I have been using your Super-Phosphate of Lime for the last two years, on various crops, with very satisfactory results, and have also sold it to several of my neighbors last year. So far, I have not heard the first complaint. The Wheat looks very promising where the Phosphate has been used. I take pleasure in recommending it as one of the best fertilizers in the market.

Yours truly, E. DUDLEY.

PENNSYLVANIA CERTIFICATES.

WEST BRANCH STATION, P. & B. C. R. R., January 31st, 1868.

MR. MORO PHILLIPS.

Dear Sir:—As I have been selling as well as using your Super-Phosphate of Lime for several years past, I might readily, without much trouble or expense, obtain a number of certificates from farmers of its benefits to their crops. But I deem it entirely superfluous in this section, inasmuch as your Super-Phosphate of Lime has now been used so long, and at present so generally by the farmers, and their experiments, which have been so beneficial to their crops of different kinds, have been talked of, and communicated from one to the other; so much so that it seems to me to supersede the necessity on your part of circulating certificates among them of its benefits to their crops. The farmers now, almost universally, use more or less of the phosphates offered in the market, among which, so far as my knowledge and experiments in the trade extends, your Phosphate is regarded as one of the best, if not the very best article of the kind offered in the market. The fact of the increased demand each succeeding year heretofore, and from all appearance the coming year, is a strong corroborating evidence that it gives general satisfaction.

Certificates outside of the acquaintance of the certifier are of little use, and here they are not needed for your Phosphate.

Very respectfully, &c.,

JOHN TRAYNER.

WAYNE TOWNSHIP, Schuylkill co., Pa., January 22d, 1868,

MR. MORO PHILLIPS.

Dear Sir:—I have used your Genuine Super-Phosphate of Lime now for the term of four years; and find it to excel any other kind I ever have used. I applied it to Wheat and Rye, and also to Cabbage Plants. I was particularly pleased with its application on the Cabbage Plants, and would strongly recommend it to farmers.

DANIEL S. SNYDER.

FRIEDENSBURG, Pa., January 22d, 1868.

MR. MORO PHILLIPS.

Dear Sir:—I am a dealer in nearly all the fertilizers which are in the market, and have sold a good deal of each kind, but I must confess that I have sold more of your Genuine Improved Super-Phosphate of Lime than all others together since I have been dealing in this article. And it has given better satisfaction to the farmers than any other kind that

I have sold. I have also used it on my own farm, and can recommend it as one of the best fertilizers manufactured.

I remain yours truly,

CHARLES HUMMEL.

WEST GROVE, First Month 31, 1868.

MORO PHILLIPS.

Esteemed Friend:—In reply to inquiries, I may say that we have been using thy manufacture of Phosphate pretty liberally for several years, for Potatoes and other crops, with very satisfactory results, during which time large quantities have been sold in this vicinity, and applied to almost every variety of crop grown here, and its superiority over most other fertilizers is very generally acknowledged. And I may remark, that the confidence evinced in this manure by our farmers, in the *continually increasing demand*, is a far more valid and efficient testimonial than anything I may write.

Truly,

M. CONARD.

SOMERTON, Pa., January 21st, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Having for some years used your Super-Phosphate of Lime for all kinds of crops, and for the last two years sold large quantities to farmers in my neighborhood, I take great pleasure in saying that I not only found it to pay me well, but have the assurance, from all my customers, of its beneficial and remunerative results, and find the demand for it steadily increasing.

Yours truly,

JOHN REES.

JOHN REES, Esq.

Dear Sir:—I have been using Moro Phillips' Super-Phosphate of Lime, for several years, on nearly all my crops, and must say that I find it very lasting and powerful in its effects, and gives me entire satisfaction.

Yours truly,

EVAN M. WOODWARD,
of Moreland, Montgomery co., Pa.

BYBERRY, Pa., January 23d, 1868.

JOHN REES.

Respected Friend:—I have been using large quantities of Moro Phillips' Super-Phosphate of Lime for several years past, and it has given me entire satisfaction, and I can recommend it as the most reliable and cheapest fertilizer ever used by me.

Respectfully yours,

SPENCER WORTHINGTON.

UNION, York co., Pa., January 27, 1868.
MR. MORO PHILLIPS.

Dear Sir :—Your Super-Phosphate of Lime has given entire satisfaction to those who have purchased from me. I consider it inferior to none in the market. At the price you are selling at, you may expect an increased demand for it this season. Respectfully yours, G. S. MURPHY.

CATAWISSA, February 1st, 1868.
MR. MORO PHILLIPS.

Dear Sir :—I have sold and dealt for several years in your Phosphate of Lime, with entire satisfaction to the farmer, more having been sold last year than in any former year, with a continual increase in the demand. Farmers who at first bought but one or two sacks now buy it by the ton, for both summer and winter crops, and consider it superior to any other in the market.

Truly yours, GEORGE RECHEL.

CATAWISSA, February 1st, 1868.
This is to certify that we have bought of George Rechel Moro Phillips' Super-Phosphate of Lime for several years, and used it in Grain and Grass of all kinds, with the best possible results, and consider it the best investment the farmer can make.

JACOB KOSTENBANDER,
JOSEPH HARTZEL,
AMOS STRAUER,
BENJAMIN MILLER,
HENRY HARTZEL,
BENJAMIN WAGNER.

MONTGOMERY SQUARE, Pa., January 21, 1868.
MR. MORO PHILLIPS.

Dear Sir :—Yours of the 18th inst. is received. In reply, I would say that I have been using your Super-Pnosphate of Lime for two years. In the fall of 1866 I put on one ton for Rye, at the rate of five hundred pounds to the acre, and by the side I put the best stable manure, and had a better crop than where the manure was put; and in the spring of 1867 I put on two tons for Corn, at the rate of two hundred and fifty pounds to the acre, after the ground had been plowed and then harrowed in; and had better Corn than where I put stable manure on the sod, and plowed under. I have also tried various other manufactures of Super-Phosphates, and, from my experience, do not hesitate to recommend yours as the best in the market.

Respectfully yours, J. M. SWARTLEY.

FAIRVILLE STATION, Philadelphia and Baltimore Central }
 Railroad, Chester county, Pa., January 24th, 1868. }

MORO PHILLIPS.

Respected friend:—Thy communication is at hand. In reply, I would say that I have not had time, personally, to see my customers, but have no hesitation in saying that thy Phosphate has given more general satisfaction than any other that I have dealt in. I have been dealing in thine for the last six years.

Thine respectfully,

ELWOOD MENDENHALL.

KENNETT, January 23d, 1868.

MR. PHILLIPS.

Sir:—This is to certify that we have used your Super-Phosphate of Lime on Wheat, Corn, Potatoes and Rye, with decided advantage. After a thorough trial, we can say, without hesitation, that we have been more than compensated by the increase of crops through the use of your Phosphate. Last year we used it on Rye, and are prepared to say it insured us the crop. This was proven by leaving half an acre of the best ground without it, on which the Rye was scarcely worth harvesting.

Respectfully,

A. D. & T. B. WOODWARD.

GREENWOOD STATION, P. & B. C. R. R.

MR. MORO PHILLIPS.

Dear Sir:—We have been using your Phosphate for some time, alongside of several other Phosphates, and find none that will excel, and only one that will compare with it. By using two hundred and forty pounds to the acre, last spring, on Grass, the amount of Hay was fully doubled, and we have the first complaint to hear from any one to whom we have sold it.

Yours respectfully,

J. & E. B. DARLINGTON.

KENNETT, January 28th, 1868.

MORO PHILLIPS.

Sir:—Having used your Phosphate for two years, I find it to be a standard article, and everything you represent it to be.

Yours truly,

FRANK HEALD.

CONCORD, Delaware county, Pa., January 18th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—I have both sold and used your Super-Phosphate of Lime, and it has given perfect satisfaction. I put on four hundred pounds to the acre last fall a year, along-

side of shed manure, and the Wheat stood up better, yielded as well, and of as good quality; and the Grass looks quite as well as where it was manured. I used twelve thousand pounds last fall on thirty acres of Wheat, hoping to reap the same result. I have not tested it on other crops.

Very respectfully, &c.,

ROBERT G. SMITH.

MORO PHILLIPS, Esq.

Dear Sir:—In answer to yours of the 17th, I reply, we have been selling your Phosphate for several years, and upon making inquiry among the farmers, we find that very general satisfaction and benefit has been derived from the use of it.

We have also used it, in a small way, with satisfactory results.

Very respectfully yours, SAMUEL N. HILL,

Woodland Station, P. & B. C. R. R.

BARNESTOWN, Chester co., Pa., August 6th, 1867.
MORO PHILLIPS.

Dear Sir:—My brother, Kurtz James, commenced the sale of your Phosphate last spring, at this place. I, in company with several other farmers, used it on Corn, and it has done splendidly; surpassed any manure ever used in this section. I used it alongside of other Phosphate, and I can see the difference from the Station here, where I put your Phosphate. The Corn is about one-third larger, strong and of good healthy color. If I had thrown the other Phosphate in the Brandywine Creek here, and took other money and bought yours for my Corn, I should have made by the operation \$50 or \$100, by present appearances. The farmers here all praise it. I can get you a certificate from every one that has used it. We think it due to the farmers to know which is the most valuable Phosphate, as we have been swindled by patent manures or humbugs until it was a heartless task to purchase any Phosphates of any kind; but now we think we have found that which is truly the farmer's friend, and we are willing for the farmers to know it, and not pay for the information as dearly as some have.

COFFMAN JAMES.

MR. MORO PHILLIPS.

LINWOOD, Pa., January 23d, 1868.

I have been using your Super-Phosphate of Lime for three years past, on Wheat, Corn and Potatoes. I consider it much better than any other manure I have yet tried, and feel safe in recommending it as a first-class fertilizer.

Yours truly,

WM. S. GOODLEY.

WEST CALN TOWNSHIP, Chester co., Pa., January 22d, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Your Super-Phosphate of Lime has been used by many of the farmers of this township, on whose recommendation I commenced using it several seasons past, having purchased from your agent, Mr. Wm. H. Wilson, Coatesville. I have realized all that was expected of it, and being assured that the quality will be kept up to its present standard, I can speak well of it as a reliable fertilizer.

Yours truly, GEORGE HENSON.

COATESVILLE, January 28th, 1868,

MR. PHILLIPS.

Dear Sir:—Your Phosphate has acted admirably ever since I have commenced using it. For four or five years I have used several kinds, but I have not had any to come up to the standard like yours. I have heard of no one who has used this manure who is not satisfied with the result; indeed, it seems to be an established fact that Phillips' Phosphate is the best manure for our soil, and its use will be indispensable to successful farming hereafter.

Yours truly, WILLIAM H. WILSON.

STREET ROAD, Pa., January 27, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Having sold your Phosphate a number of years at this place, I am enabled to say that it is now accepted universally as the standard by which all special manures are judged. The cases in which it does not give entire satisfaction are very rare indeed.

Yours respectfully, M. J. TAYLOR.

WEST CHESTER, First Month 28th, 1868.

MORO PHILLIPS.

Yours of the 18th inst. came duly to hand, and in reply, say that we have used and sold your Phosphate for six years past, and it has given us, and those we sold to, better satisfaction than any other Phosphate in the market.

Yours truly, BENNETT & LEAR,
Agricultural Warehouse, West Chester, Pa.

EXTON GRAIN DEPOT, February 5th, 1868.

MORO PHILLIS, Esq.

Dear Sir:—In reply, I beg to state that your Phosphate has given such satisfaction that I have concluded to make it a *speciality* in my trade. I have sold the Phosphate on its own merits, and it has established a trade for me to the almost total exclusion of all other Patent Manure. I doubled

my sales last fall, and shall *triple* them the coming spring.

Yours faithfully,

WM. B. TORBERT,

Exton P. O., Chester co., Pa.

MORO PHILLIPS.

THORNTON, Pa., January 25th, 1868.

Sir:—I have used your Phosphate for several years, and can recommend it as the best in market. The farmers about here would not have any other. While farming we tried different kinds, and pronounce yours the best; so do all the farmers that I have consulted about phosphate.

Yours truly, B. TEMPLE & SON.

WASHINGTON TOWNSHIP, Schuylkill co., Pa., January 22d, 1868.
MR. MORO PHILLIPS.

Dear Sir:—I have used your Super-Phosphate of Lime on Wheat, Rye and other crops, alongside of stable manure, and the yield was as good if not better.

BENJAMIN HUMMELL.

WAYNE TOWNSHIP, Schuylkill co., Pa., January 23d, 1868.
MR. MORO PHILLIPS.

Dear Sir:—I have used your Genuine Super-Phosphate of Lime on Rye, Wheat, Corn, Buckwheat and garden truck, alongside of other fertilizers, and find it the best, fully as good as stable manure.

Yours truly, JOHN MOYER.

WAYNE TOWNSHIP, Schuylkill co., Pa., January 25th, 1868.
MR. MORO PHILLIPS.

Sir:—I have tried your Phosphate of Lime for two years on Rye, Turnips and Cabbage, with very beneficial results, and can recommend it to my neighbors as the best Phosphate I have used.

Very respectfully, ELIAS REED.

WAYNE TOWNSHIP, Schuylkill co., Pa., January 22d, 1868.
MR. MORO PHILLIPS.

My Dear Sir:—My experience in the use of your Genuine Improved Super-Phosphate of Lime is of six years, and I have found it to be the best fertilizer I have used. For Wheat and Rye it is better than any other manure, and I can show the difference of Phosphate on my Wheat. I would recommend it to all others.

Yours truly, JOHN KREAMER.

Wayne Township, Schuylkill co., Pa., January 22d, 1868.

MR. MORO PHILLIPS.

Dear Sir:--I have often heard the expression made, "Use Moro Phillips' Genuine Improved Super-Phosphate of Lime, and you will have a good crop of Wheat and Rye." I have used your fertilizer for several years, and find it to be good.

Yours truly, W. M. SCHAFFER.

Near Friedensburg, Schuylkill co., Pa., January 29th, 1868.

MORO PHILLIPS.

Dear Sir:--I have used your Phosphate on Rye, and the result is, as large a crop of straw, and more bushels of Rye than where I used stable manure. I used three hundred pounds to the acre. I take pleasure in testifying to the value of your Phosphate, and in recommending it to my neighbors.

Yours truly, D. K. REED.

Wayne Township, Schuylkill co., Pa., January 22d, 1868.

MR. PHILLIPS.

Dear Sir:--I have used your Genuine Improved Super-Phosphate of Lime, alongside of stable manure and other Phosphates, and have received better results from your Phosphate than either of the other manures.

Yours truly, BENJ. SMITH.

Washington Township, Schuylkill co., Pa., January 22d, 1868.

MR. MORO PHILLIPS.

Dear Sir:--I have been using your Super-Phosphate of Lime on Wheat, Rye, Corn, Buckwheat, and all kinds of garden truck, for several years, alongside of stable manure and other Phosphates, and yours is far the best.

JACOB MOYER.

Wayne Township, Schuylkill co., January 22d, 1868.

MR. MORO PHILLIPS.

Dear Sir:--I have been using your Super-phosphate of Lime for the last four years, from three to six tons per year, and have found it the best fertilizer in the market, fully equal to stable manure.

Yours, JOHN KEMMERLING.

Railroad P. O., York co., Pa., January 22d, 1868.

MORO PHILLIPS.

Sir:--At your request, we can say that we have sold quite a quantity of your Phosphate to a number of farmers in York county, Pennsylvania, and in Baltimore

county, Maryland, and all with whom we have conversed prize it very highly, and say it is a very good article.

Yours respectfully, J. A. BLASSER & Co.

Briar Creek, Columbia co., Pa., February 1st, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Attempts have been made to introduce a dozen or more kinds of fertilizers in this neighborhood. All sorts of Bone Dust, Poudrette, &c., have been tried by our farmers, but all have failed to satisfy except the very excellent Phosphate of your manufacture. It has superseded all others. It has produced double the amount of Potatoes over the best barn-yard manures. On Corn the most skeptical acknowledge its benefits. On my Rye and Buckwheat in the past year a hundred pounds per acre fully doubled both straw and grains.

Everybody sees and acknowledges the superiority of your article. If it continues to do the good that it has done, I will use large quantities of it.

I am yours, &c.,

J. C. SMITH.

Salem Township, Luzerne co., Pa., January 4th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—Your Super-Phosphate of Lime I have been using for the past two years on various crops, and the result is, that where I used it on Rye, the increase in the straw was more than enough to pay for the Phosphate, and I still propose to use no other. The people in our neighborhood speak of it in the highest terms—not one word of fault to find.

Yours truly,

J. COPE.

Salem, Luzerne co., Pa., February 1st, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—I have been using your Super-Phosphate of Lime for two years on all my crops, and am highly pleased with the results. The result in the Rye crop was most satisfactory. The excess of the straw alone over where it was not used will more than pay for the Phosphate used. On the Buckwheat its effect was equally as gratifying. I tried the Phosphate on a field well prepared to test its results. I sowed one acre which I had prepared with twenty loads of manure, and adjoining it I used on one acre two hundred pounds of your Super-Phosphate; and on the piece where the Phosphate was used the grain was most decidedly better.

Numerous other fertilizers are used in our neighborhood, but I venture to say, that in one year more yours will have rooted

them all out. I shall continue to use it, as I am satisfied that nothing better can be found.

Respectfully yours,

WILLIAM MOORE.

Marple, Delaware co., Pa., February 1st, 1868.

MR. MORO PHILLIPS.

Dear Sir:—In answer to your inquiry, I would say, that Moro Phillips' Super-Phosphate is considered a permanent fertilizer.

I have used your Phosphate on Corn and Wheat, and have no hesitation in recommending it as a highly valuable manure. I have sold it in this vicinity for several years, and the farmers generally speak very highly of it; in fact, will use no other.

Yours respectfully, E. R. CURTIS.

West Grove, Pa., February 3th, 1868.

MORO PHILLIPS, Esq.

Respected Sir:—Having sold several hundred tons, and used considerable of your Super-Phosphate of Lime during the last six years, I am prepared to say that it has given, by far, the best satisfaction, in this vicinity, of any article of fertilizers offered, and that the demand for it has steadily increased.

Yours truly,

JOSEPH PYLE.

New Centreville, Chester co., Pa., January 10th, 1868.

MORO PHILLIPS.

Dear Sir:—It affords me great pleasure to testify to the superiority of your "Super-Phosphate" to any I have heretofore used. I have used it on my Wheat, and my prospects now are as good as anybody need wish for.

Yours respectfully, W. C. ELIASON.

West Grove, January 21st, 1868.

I have purchased of B. H. Chambers, at Avondale Station, Moro Phillips' Phosphate, for two years, and can say it has produced double the amount of Potatoes over our barn-yard manure; in fact, it has never failed on any crop where I have tried it.

LEVI GARRETT.

Avondale, February 11th, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Having sold your Super-Phosphate of Lime for three seasons, during the trade of spring and fall, I can readily say that it gives general satisfaction among the best farmers in this vicinity. The majority ask for your article.

Yours respectfully, B. H. CHAMBERS.

Brownburg, Bucks co., Pa., January 26th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I have been using your Super-Phosphate of Lime for several years, and have received great benefit to my Wheat crop, also to my Grass crop after the Wheat, and have been selling to my neighbors for several years, and it has given good satisfaction, as the quantity I have sold proves.

Yours most respectfully,

STACY BROWN.

Danville, Pa., January 22d, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—Your favor of the 18th inst. is received. I am happy to inform you that your Super-Phosphate of Lime has given general satisfaction. I have been selling it the last five years, and have not had a single customer to complain or regret that he had bought it. All appear to think it pays much better than lime.

Yours respectfully,

E. THOMPSON.

Penn, Pa., January 30th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—In regard to your Super-Phosphate I have but one thing to say, that it has given entire satisfaction to all my customers, I believe without one exception. I have sold it to some thirty different persons within the last year, and they are all satisfied that it is the best in use. My father and myself have tried it, and it has amply paid us. When the time comes for you to fix your price, please advise us in regard to it, and oblige

Your friend,

R. C. KELTON.

Yardleyville, Pa., January 25th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—We have been selling your Phosphate both at this place and at Baker's Basin, N. J., for several years past, and upon inquiry among numerous customers, we find it has given good satisfaction, and the sale for it is constantly increasing. We have also used it ourselves with the best results.

Yours respectfully,

TWINING & SON.

Catawissa, Pa., January 29th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Having for some years used your Super-Phosphate of Lime for agricultural purposes, and for the past three years sold large quantities to farmers throughout this section, it affords me pleasure to say to you, that I not only found it myself to pay well, for both summer and winter crops, but have the assurance from all my customers of its beneficial and remunerating results. The demand for it has steadily increased, and you may expect my orders for larger quantities the coming season than for any past.

I am very truly, &c., J. S. McNinch.

Chester, Pa., January 25th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—In reply to yours of the 25th inst., we would state that we have been selling your Super-Phosphate of Lime several years, and have found it to give the very best satisfaction to our customers. The best evidence of which is, that your sales have been constantly on the increase since we commenced selling it, notwithstanding the increased number of manufacturers of other fertilizers that have come in competition with it.

Respectfully yours, P. BAKER & Co.

Kennett Square, January 24th, 1866.

MORO PHILLIPS.

Dear Sir:—I have bought and sold (as a dealer only,) your Super-Phosphate of Lime for one year past. Have kept it in preference on account of its qualities being tested, and in greater demand by the farmers of this section than any other kind. Was also prompted to keep your manufacture by the person whom I succeeded, as it had given the greatest satisfaction to all who had used and knew its value.

Yours truly, F. H. LAMBORN.

Tamaqua, Pa., January 20th, 1866.

MORO PHILLIPS. Esq.

Dear Sir:—Your favor of the 18th inst. is at hand. I have sold your Super-Phosphate of Lime for some years past, and it has invariably given satisfaction. The uniform quality and appearance of your Super-Phosphate has induced parties to buy it when other manufacturers were selling at lower rates.

Respectfully, E. J. FRY.

Elam, Delaware co., Pa., January 24th, 1866.

To MORO PHILLIPS.

Respected friend:—It has been four years since I first began using thy Super-Phosphate of Lime; during that time I have used it upon nearly every crop, and have tested it alongside of other fertilizers sold in this neighborhood. I consider it second to no other in producing yield of grain and other crops. I have found it superior to all others as a permanent manure. My customers are entirely satisfied with thy Phosphate; and to show that this is correct, there was one hundred tons used in my neighborhood to five tons of all others.

Very respectfully thine,

CLARKSON WAY.

Media, Pa., January 25th, 1866.

MR. MORO PHILLIPS.

Sir:—We have been selling your Super-Phosphate the last three years, and it has given entire satisfaction to our customers. We take pleasure in recommending it as one of the best fertilizers in the market.

Yours truly, H. P. & W. EVES.

Norristown, Pa., January 24th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Yours of the 18th inst. came duly to hand, asking my opinion of your Super-Phosphate of Lime. I have been selling it the last three years, and all my customers say it has given entire satisfaction, and will want more the coming season.

Yours truly, J. M. TYSON.

Concord, Pa., January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I have been using your Super-Phosphate of Lime pretty extensively several years, and have also sold it. I have always found it to be a genuine article in every case. I have watched it very closely, and never knew a single instance of failure when it had a fair trial. I still remain a customer of Mr. Phillips.

Yours, &c., W. T. MCKAY.

Fairville Station, Phil'a & Balt. R. R., January 26th, 1866.

MORO PHILLIPS.

Respected Friend:—I have been dealing in and using thy Super-Phosphate of Lime for the last four years, and find that it gives the most general satisfaction of any that I have used or dealt in.

Thine respectfully,

ELWOOD MENDENHALL.

Tough Kenamon, January 22d, 1866.

MORO PHILLIPS.

Dear Sir:—In reply to yours of the 18th I would say, that your Super-Phosphate has given very good satisfaction, and expect an increased demand the coming season.

Yours very truly, PYLE & SPRINGER.

Rupert, Pa., January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I take great pleasure to inform you of the entire satisfaction your Super-Phosphate has given to the parties in our region who have used it, and anticipate a large increase of its use the coming year.

Yours, &c., J. H. HARMAN.

West Haverford, Pa., January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—In reply to your inquiry of the results of your Phosphate, we would beg leave to say, we have been selling and using it for several years, and it has always given universal satisfaction.

Very truly yours, LINDSAY & MILES.

Cheyney, Pa., January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I have been selling your Phosphate for some time. It has given very general satisfaction. My customers all prefer it to any other make of Phosphate, and say it raises better Wheat than barn-yard manure.

Yours truly, GEORGE S. CHEYNEY.

Peach Bottom, York co., Pa., February 6th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—We have been selling your Super-Phosphate of Lime for several years past, and take pleasure in certifying to the high character it has obtained in this locality. It has been tried in competition with other Phosphates, and in the experience of nearly all our customers, it has excelled *all others* in its beneficial effects upon the various crops. We have used it ourselves on Wheat and Corn, with the most gratifying results.

Yours truly, McCONKEY BROTHERS.

Village Green, Pa., January 30th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—I have used your Super-Phosphate of Lime with very satisfactory results, and I have generally heard it well spoken of by those who have tried it.

Yours truly, J. W. McCracken.

Parkeburg, Pa., January 31st, 1866.

MORO PHILLIPS, ESQ.

No. 27 North Front Street, Philadelphia.

Dear Sir:—This is the third season that I have been selling your "Super-Phosphate of Lime," and each year the demand for it has greatly increased. Very many of my customers have expressed their satisfaction with the results of its application to their Wheat and Corn crops, and they all agree in awarding it praise for the great increase in their Grass crops where it had been applied.

Yours truly, SAMUEL R. PARKE.

Parkeburg, Pa., January 31st, 1866.

MR. MORO PHILLIPS.

Sir:—I received yours of the 18th inst. In reply, I send you the result of applications made by several farmers in Sadsbury township, Chester county, with "Moro Phillips' Super-Phosphate of Lime." GEORGE HOFFMAN says it doubled his Corn crop, and where applied on Turnips, they were the best, and of large size, while where he put none they were small. T. J. McKIM says that it made him a first-rate Corn crop; where he did not use it he had not more than one-third of a crop. JAMES McNAUGHT says that where he used it on Wheat it paid him well in the Wheat crop, and afterwards he had double the amount of Grass.

Yours respectfully, WM. J. FIELDS.

North Bend, Pa., January 30th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—We have used your Super-Phosphate of Lime on our own land the last three years, and have found it to equal barn-yard manure for Wheat, at three hundred pounds per acre, on good limestone land, the Grass afterwards being one-third better where the Phosphate was used. As dealers, we have no calls for any but yours.

Yours respectfully, A. STEWART.

Danville, Pa., January 31st, 1866.

MR. MORO PHILLIPS.

Dear Sir:—I have been dealing in your Phosphate of Lime for several years past, and take pleasure in saying that it has given very general satisfaction; more so, I believe, than any other Super-Phosphate ever offered in this section of the country. In short, our farmers consider it a first-rate fertilizer, and, as an evidence of this, I now state that the sale of your Super-Phosphate is rapidly increasing every year.

Yours truly, JOHN EVERETT.

West Chester, Second Month 6th, 1866.

MORO PHILLIPS.

Respected Friend :—Thine of 18th January came duly to hand. In reply, I have been selling thy Phosphate since 1862, and each year my sales have been on the increase. Last year my sales were about one hundred tons; thee can judge by that how much satisfaction thy fertilizer has given in this neighborhood. I have sold some of nearly all the manures offered in the market, but none have given the universal satisfaction which thine has. I have, therefore, given up keeping them, and now sell only thy Phosphate. It has been tried with us on all kinds of crops with great success.

Truly thine, CALEB TAYLOR.

West Grove, January 31st, 1866.

MORO PHILLIPS, ESQ.

Esteemed Friend :—In answer to thine of 18th inst., I may say, that I have used thy Super-Phosphate of Lime somewhat freely for a year or two past, on summer crops with very satisfactory results.

M. CONARD.

Moreland, Pa., January 10th, 1866.

TO JAMES THORNTON.

I have used Moro Phillips' Phosphate for several years. It has never failed for me, and I apply it to my crops with entire confidence.

Respectfully yours, CHARLES H. LUKENS.

Oxford, Pa., February 8th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir :—I commenced using your Super-Phosphate of Lime in the spring of 1861, putting two barrels of it on Corn in the hill; which produced such remarkable results that I have used it both spring and fall ever since, and have been increasing in the amount each year until the last season, when I put three tons on in the spring for Corn, and seven tons in the fall for Wheat. After five years trial I can recommend it as always the same, producing good results, and giving better satisfaction than any fertilizer ever used in this vicinity. My plan of using it for Corn is to put on about one hundred pounds to the acre, in the hill, (or a handful to three or four hills,) and to sow one hundred and fifty to two hundred pounds per acre broadcast, and for Wheat to put on from four hundred to four hundred and fifty pounds per acre, sown broadcast and harrowed in.

Yours truly, MARK A. HODGSON.

Oxford, Chester co., Pa., February 8th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—In reply to your circular, I would say, that in the spring of 1861 we first sold two barrels of your Super-Phosphate of Lime, and gave away a third, and since then it has grown so much in favor that we sold over two hundred and fifty tons of it last fall; and during the last year we sold twenty tons of your Super-Phosphate to every ton of all the other fertilizers together, that were called for at our place. Nothing ever offered in this vicinity has given such universal satisfaction.

Yours respectfully, ROBERT HODGSON,
Surviving partner of R. & G. D. HODGSON.

Biberry, Pa., Second Month 8th, 1866.

MR. MORO PHILLIPS.

Respected Friend:—I have been selling Moro Phillips' Super-Phosphate of Lime for four years. It gives general satisfaction to my customers, and is relied upon as a standard manure. I could furnish you with many testimonials from some of our best farmers, but do not consider it necessary.

Very respectfully yours, JAMES THORNTON.

Wrightsville, Pa., February 16th, 1866.

MORO PHILLIPS, ESQ.

Sir:—The "Super-Phosphate" purchased of you has been disposed of, and has given very general satisfaction.

Yours respectfully, W. McCONKEY & Co.

Torrisdale, Pa., January 20th, 1866.

JAMES THORNTON.

We have used Moro Phillips' Super-Phosphate upon Wheat, Grass, Corn and Sorghum, and pronounce it a very valuable manure.

Respectfully yours, J. & E. THOMAS.

Bristol, Pa., Second Month 14th, 1866.

Dear Sir:—I have been selling your Phosphate of Lime, I believe, ever since you commenced making it; and it has given very good satisfaction. I have used it myself the last year on Potatoes and Corn. I applied it on Potatoes in the row, about four hundred pounds to the acre; the result was one-third more Potatoes than where I did not use Phosphate, they being all manured alike. I applied it on Corn, sown broad-cast, and had a very good crop. I believe it to be a very good fertilizer.

Yours truly, N. D. ROBERTS.

Byberry, Pa., January 18th, 1866.

TO JAMES THORNTON.

Moro Phillips' Super-Phosphate is the best I have ever used, and I am perfectly satisfied with it thus far. I used it upon all my crops with good effect.

Respectfully yours,

CHARLES PARRY.

Penningtonville, Pa., February 16th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Yours of the 18th ultimo was duly received. In reply, your "Phosphate of Lime" has given general satisfaction to my customers. Your Phosphate has the preference of any other sold in this market.

Yours respectfully,

THOS. CRAWFORD.

Buckhorn, Columbia co., Pa., February 14th, 1866.

MR. MORO PHILLIPS.

I would say that your Phosphate of Lime has given better satisfaction here than any other Phosphate. It produced double the amount of Potatoes over barn-yard manure; it also proved excellent on Corn. One of my neighbors used one hundred pounds per acre on Rye, in the fall of 1864, and says that the increase in Straw alone *more* than paid him for his Phosphate, and had double the quantity of Rye.

The Buckwheat crop was tripled where the Phosphate was used. If it continues to do the good that it has done, I will need large quantities to supply the demand.

Yours truly,

AARON SMITH.

CHRISTIANA, Pa., March 2d, 1866.

MORO PHILLIPS, Esq.

Sir:—In answer to your circular of January 18th, we would say that we have sold your Phosphate during the last season, and we find it to be very popular, being almost the only kind called for.

Yours truly,

POWNALL & GRIEST.

CHESTER CITY, Pa., August 28th, 1866.

MR. MORO PHILLIPS, Esq.

Sir:—Having sold your Super-Phosphate of Lime last spring, we would say it gives our customers entire satisfaction.

Yours, &c.,

R. R. DUTTON & SON.

ROYER'S FORD, Pa., February 11th, 1868.

MR. MORO PHILLIPS.

Dear Sir: I have been selling and using your Phosphate Lime, and am satisfied that it is one of the best fertilizers in the market. Those to whom I have sold it are well pleased with it.

Respectfully yours,

H. H. BECHTEL.

WRIGHTSVILLE, February 14th, 1868.

MORO PHILLIPS, ESQ.

Sir:—The demand for your Phosphate has been very great. We were unable to get a full supply of it last fall for seeding, either at the factory or of your agent at Baltimore. It has given entire satisfaction where used.

Yours, &c.,

W. McCONKEY.

WEST CHESTER, February 17th, 1868.

MORO PHILLIPS.

In regard to your Super-Phosphate of Lime, I have been using it for three years. It has given me entire satisfaction. I have used several kinds of Phosphates, and I consider yours decidedly the best. I tried it on the mowing field. I limed about two-thirds of the field, and on one-third put Phosphate. The one-third, where Phosphate was put, mowed as much grass as the other two-thirds, for two years in succession, and the third year I had Corn in the field where the Phosphate had been used the Corn was the best. I have tried it alongside of barn-yard manure, and for Grass it is decidedly the best, and about equal for Wheat.

Yours respectfully,

GIDEON MILES.

DELAWARE CERTIFICATES.

FREDERICA, Kent county, Delaware.

MR. MORO PHILLIPS.

Dear Sir:—I have been using your Super-Phosphate of Lime, or Moro Phillips', as the farmers here call it, and believe it to be the nearest or next best article to Peruvian Guano that I have tried. One of my tenants applied three hundred pounds to the acre, year before last, on part of a field where the land was unimproved, on Wheat. He raised a good crop of Wheat on the ground. Last year he planted Corn on the ground, and also extended the Corn crop where

the Super-Phosphate had not been applied. The yield where the fertilizer had been applied on Wheat the year previous was more than double, neither having anything done in the way of manure for the Corn crop. There are very few fertilizers used in this part of the country but yours. The farmers nearly all prefer your Super-Phosphate.

Yours with respect,

CALEB SMITHERS.

NEWARK, Delaware, January 21st, 1868.

MR. MORO PHILLIPS.

Dear Sir:—I have sold, this last two or three years, considerable of your Super-Phosphate of Lime, and, as far as I know, it gives entire satisfaction.

Yours very truly,

A. H. FISHER.

MILFORD, Delaware, January 24th, 1868.

MR. MORO PHILLIPS

Sir:—I have sold your Phosphate of Lime for several years, and last fall sold three times as much of it as of all other fertilizers, to be used on Wheat. The farmers prefer it to any other Phosphate, and I think it very good.

Yours, C. S. WATSON.

DRAW-BRIDGE, Sussex county, Delaware.

MR. MORO PHILLIPS.

Sir:—We have been selling your Phosphate for five years past, and find it to give to all farmers that use it general satisfaction. From our own experience with it on our own farm, both for spring and fall crops, both broad-cast and in the hill, we can say that it has given satisfaction to us, and we would recommend it to all farmers.

Yours,

BURTON & DORMAN.

MILFORD, Delaware, February 5th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—In reply to yours of January 18th, asking for certificate of our own experience in the sale and use of your Super-Phosphate, we have simply to say, that the steady and rapid increase in the demand for it in this neighborhood is an indisputable argument in its favor. The prospect for large spring sales with us is very bright.

Yours truly,

D. B. ANDERSON & SON.

MILFORD, Delaware, January 20th, 1868.

Respected Sir: I gave your Super-Phosphate of Lime a fair trial on Wheat last year, and think it paid me as much as any fertilizer or manure I ever used. I drilled about two hundred and fifty pounds to the acre, and applied about four tons to my Wheat crop, and realized about eight hundred bushels of Wheat. I think five hundred bushels would have been as much as I could possibly have raised without the Super-Phosphate; therefore, the difference in favor of the Super-Phosphate is three hundred bushels, which I sold at \$2.50 per bushel, amounting to \$750. Thus, I consider I gained by using the four tons of Phosphate above named. Where I have sold it I think it has given perfect satisfaction.

MIERS C. DRAPER.

LEIPSIC, Delaware, January 25th, 1868.

MORO PHILLIPS, Esq.

Dear Sir: We have placed your Phosphate in the hands of a number of farmers in this vicinity, they having applied it last fall on Wheat. We enclose certificates of two very reliable farmers, and influential, who have had more experience, and have seen, from their own application, good results, which will be some advantage to you, perhaps. If so, you have their permission to use them as you think proper.

Yours truly, DENNEY & SNOW.

LEIPSIC, Delaware, January 23d, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—I used your Super-Phosphate on last year's crop of Wheat, with entirely satisfactory results, and cheerfully recommend it as the "Standard Fertilizer" for our section. In my vicinity, where your Phosphate has been used, I find that, in addition to my experience in fertilizers, it is generally conceded by those who have used various kinds of Phosphates, that Moro Phillips' is the favorite.

Very respectfully, HENRY F. HILL.

LEIPSIC, Delaware, January 23d, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—I have used your Phosphate on Wheat, and am of opinion that there is none better. In applying it on Wheat I have also found that the crop of Grass has been materially increased beyond my expectations. I used four tons last fall, and shall continue it, if in the future my expectations shall be realized, as my past experience has proved it a reliable and economical fertilizer.

Yours, &c., SAMUEL HARGADINE.

BRIDGEVILLE, Delaware, January 29th, 1866.

MR. MORO PHILLIPS.

No. 27 North Front street, Philadelphia.
Respected Sir:—Your favor of 17th inst. came duly to hand, asking the result of my experience and observation with the use of your Super-Phosphate of Lime. I have taken a few days to enable me to make a full inquiry of the neighboring farmers to whom I have sold the article, and can now say that all are well pleased with its results. We feel that it is a preparation well maintained by its own merits.

Wishing you much success in the prosecution of the same well-earned reputation,

I remain as ever yours,

L. DAMON.

WILMINGTON, Delaware, January 26th, 1866.

MR. MORO PHILLIPS.

Dear Sir: I have sold your Super-Phosphate of Lime for about three years, and can say it has given satisfaction to all my customers, as far as my knowledge extends.

Yours truly, JOSEPH ALDERDICE.

WILMINGTON, Delaware, January 18th, 1866.

MR. MORO PHILLIPS.

Dear Sir: Having sold a considerable quantity of your Genuine Improved Super-Phosphate of Lime to our friends last year, we take much pleasure in stating to you that we have nothing but flattering accounts of its uniform good quality as a manure. We shall require a good supply the coming year, and beg to remain

Yours very truly, PEDRICK, PEOPLES & Co.,
Formerly J. M. Peoples & Co.

MR. MORO PHILLIPS.

MILFORD, Delaware, January 19th, 1866.

Sir: I have been selling your Super-Phosphate for three years to the farmers, and it gives general satisfaction. I think it a good fertilizer.

Yours with respect, C. S. WATSON.

SMYRNA, Delaware, January 25th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir: Yours dated 17th is received, and would have been sooner replied to, but was overlooked. It gives us pleasure to state that your Phosphate has been generally used by the farmers in this neighborhood, and with great satisfaction. It is a favorite with many of them.

Yours respectfully, J. C. & A. H. STOCKLY.

SMYRNA, Delaware, January 19th, 1866.

MR. MORO PHILLIPS.

Dear Sir: In reply to yours of the 17th inst., I have the pleasure to inform you that I have used your Phosphate on my farm the past four years with excellent results, and have no hesitation in saying that it is the best fertilizer now before the public, and will, I have no doubt, supercede all other standards. I have been a regular dealer in Phosphates the past four years, and can assure you that "MORO PHILLIPS' *Genuine Improved Phosphate*" has given the most satisfaction to my customers; the result of which caused me to drop all other makes and keep no other Phosphate but yours.

Yours respectfully,

JOHN R. WILSON.

WILMINGTON, Delaware, January 23d, 1866.

MORO PHILLIPS, ESQ.

Dear Sir: We have been selling your Super-Phosphate of Lime to our customers for several years, and it affords us much pleasure to say that in every case it has given entire satisfaction.

Yours truly, KELLEY & ALLEN.

WHITELYSBURG, Delaware, January 22d, 1866.

MR. MORO PHILLIPS.

Dear Sir: I have been using your Super-Phosphate of Lime on Corn and Wheat for three or four years, and am well satisfied of its value as a fertilizer. I applied it on Wheat at the rate of three hundred pounds to the acre, which gave me a better head and heavier grain than where I used other Phosphate, while the Grass has taken more thoroughly than in other parts of the field. I also find that my customers appreciate its value, as my sales of your Phosphate of Lime increase yearly.

Yours respectfully,

D. MARINE.

NEWPORT, Delaware, January 25th, 1868.

MR. MORO PHILLIPS.

Dear Sir: Your favor of the 17th is at hand and noted. We have for some years past been selling your Super-Phosphate of Lime. The demand for it has been yearly increased, so that we sell three tons of your manufacture to one of any other. We use it ourselves in preference to any other manufacture.

Yours truly, J. CRANSTON & SON.

MAGNOLIA, Kent co., Delaware, January 24th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I write to say of your Phosphate that it is the only article of the kind called for here. I made effort last fall to sell Phosphate of two other manufacturers, but succeeded in selling but five tons of each, while of yours I sold one hundred and thirty tons without any effort at all to sell it. The farmers here regard Moro Phillips' Improved Super-Phosphate as the very best article of the kind for general use. I have had two years experience in the growth of Sorghum with the use of two hundred pounds of Phillips' Phosphate to the acre, in the row, which produced one hundred and fifty gallons of No. 1 Syrup per acre on land that would not yield over twenty bushels of Corn without the Phosphate. I regard it as the very best article in the market for all crops requiring an ammoniated manure, and especially for the growth of Sorghum.

Yours very respectfully,

M. S. VON BURKALOW.

WILLOW GROVE, Delaware, January 24th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have never fully tested your Phosphate myself, but farmers around me that have used it principally on Wheat and Corn, say that it has proved very satisfactory in all cases.

Yours truly,

E. COWGILL.

NEWARK, Delaware, January 20th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Your request for our experience in using and dealing in your Phosphate, is duly received. In reply we would say, we sold ten tons of your Phosphate to one of any other brand. We consider it the best and most economical manure used, producing better crops in proportion to the quantity used than any other kind manufactured.

Yours very truly,

REYNOLDS & BRO.

GEORGETOWN, Delaware, January 23d, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have used your Super-Phosphate the past three years on Wheat and Corn, and am happy to say that it has given entire satisfaction.

Yours truly,

WILLIAM TAM.

NEWARK, Delaware, January 20th, 1866.

MR. MORO PHILLIPS.

Dear Sir:—It gives me pleasure to give my testimony in favor of your Super-Phosphate of Lime. I used it last fall on my Wheat crop. I think it acted fully as well and produced as many bushels of Wheat to the acre as the same quantity of Peruvian Guano. I consider as a fertilizer it has no superior, and as I am dealing in the article, all that have bought of me speak in its praise.

Yours respectfully,

A. H. FISHER.

FREDERICA, Delaware, January 19th, 1866.

MORO PHILLIPS.

Dear Sir:—I have been selling and using your Super-Phosphate for several years. It has given general satisfaction, and comes the nearest to Peruvian Guano of anything I have ever sold or used.

Yours very truly,

JOHN W. HALL.

MIDDLETOWN, Delaware, January 20th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have supplied quite a number of farmers with your valuable Super-Phosphate of Lime during the last two years. The general report from them is of the most favorable kind—having not heard a word of complaint from a single individual to whom I have sold it, but all join in commendation of its value as a fertilizer.

Yours, &c.,

R. R. R. ROTHWELL.

DOVER, Delaware, January 31st, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Yours at hand, making inquiry about your Phosphate. We believe it has given general satisfaction. As far as we have heard, we believe we have not had any complaint.

Truly yours,

MCDANIEL & STEVENSON.

WILMINGTON, Delaware, January 31st, 1866.

MR. MORO PHILLIPS.

Dear Sir:—We have been selling "Moro Phillips' Genuine Improved Super-Phosphate" for past three years, and find it has given more universal satisfaction than any Phosphate we ever sold.

Yours truly,

CULBERT & BRO.

SPRING MILLS, near Frederica, Delaware, January 19th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Yours of the 17th inst. is received, in which you request me to inform you as to the satisfaction given to yourself and neighbors in the use of "Moro Phillips' Super-Phosphate." In reply we say, (without intending any disparagement of other good articles,) it has been used extensively in this section with unqualified satisfaction.

Yours truly,

T. B. COURSEY.

FARMINGTON, Delaware, January 26th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have been selling your "Super-Phosphate of Lime" at this place, the past two or three years. As far as I can learn, it has given general satisfaction. The low price of grain will prevent the use of the amount that would otherwise be used, yet I have no doubt that I shall be able to sell a considerable quantity.

Yours respectfully,

C. J. HARRINGTON.

Near WILMINGTON, Delaware, February 10th, 1866.

MORO PHILLIPS, Esq.

Sir:—I have been selling your Super-Phosphate of Lime for two years, and it has given entire satisfaction to my customers, as far as I know, and they use it in preference to any other fertilizer in the market.

Very respectfully yours,

ROBT. G. SMITH.

MARYLAND CERTIFICATES.

PORT DEPOSIT, Maryland, January 20th, 1866.

MORO PHILLIPS, Esq.

Philadelphia, Pa.

Dear Sir:—We have sold considerable of your Phosphate, and as far as we know, it has given entire satisfaction. Please give us quotations for next spring.

Yours truly, J. TOME & Co.

NORTH EAST, Maryland, January 20th, 1866.

MORO PHILLIPS, Esq.

Sir:—Your circular of the date of 17th inst. was received per due course of mail, and in reply to same, state that your Super-Phosphate has given good satisfaction in nearly every case in which I have sold it to my customers.

Yours truly,

GEORGE CHANDLER.

CENTREVILLE, Maryland, January 23d, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Yours of the 18th inst. this day received. I have used your Phosphate myself, with "WHITE-LOCK'S" in a small way, and I think yours fully equal to his, although his cost \$10 per ton more than yours. My different tenants have used yours very extensively the last two years, (all being supplied through me,) with every variety, and they think yours equal to any tried, indeed two of them think it superior. I had a few barrels of "HEWES'" sent me, gratis, to test it with other kinds; I made use of one barrel myself, and distributed the balance with my tenants. "HEWES" says he is not afraid to test it with any other fertilizer. I shall be able to judge after harvest.

Yours, &c.

PERI WILMER.

DARLINGTON, Maryland, January 26th, 1866.

TO MORO PHILLIPS, Esq.

My Dear Sir:—I have been selling your Super-Phosphate of Lime for several years, and not a careless observer of its action, which has been uniformly satisfactory.

Our customers are *practical farmers*, closely attentive to their interests, from whom reports are favorable, consequently it is growing in popularity with them. We expect to require of you the coming season an increased amount of it.

Very truly yours,

JACKSON & WILSON.

NORTH-EAST, Maryland, January 23d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—We have used and sold your Super-Phosphate, and find that it always gives satisfaction. The demand is steadily increasing for it with us.

Yours truly,

A. B. OWENS.

EASTON, Maryland, January 23d, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Yours received. Not being a farmer, I have never used any of your Phosphate, but my experience is that "Moro Phillips' Phosphate" stands at the head of all such articles in this section. And should the experience of this year bring the same results as last year, you may rely on an equally increased demand. It is too early yet, and the winter has been too severe to admit of any judgment being formed of the crops now seeded.

Should you desire, I will, as soon as spring opens, make inquiries as to the prospects.

Yours respectfully,

THOMAS C. NICOLS, JR.

MR. MORO PHILLIPS.

WESTMINSTER, Maryland, February 20,

Sir:—We received a few lines from requesting us to let you know what satisfaction your Phosphate has given. In reply we will say, that we have been selling your Super-Phosphate for some years, and indeed were the first dealers in the county to sell it, and can honestly say to you that we have sold a great amount of it, and with entire satisfaction to all that have used it.

Very respectfully,

BOWERS & LEHR.

MR. MORO PHILLIPS.

BALTIMORE, Maryland, January 31st, 1866.

Dear Sir:—In reply to your inquiry as to my experience in the sale of "Moro-Phillips' Super-Phosphate of Lime," I would state that I have been selling that article for the last three years, and that it has given general satisfaction.

I have had frequent unsolicited testimony from farmers in Baltimore, Anne Arundel, Prince George, Howard and Carroll counties, that was highly favorable. This, corroborated by the fact of a steadily increasing demand, warrants me in the conclusion that your Phosphate, if not the best, is equal (next to the Peruvian Guano) to the best fertilizers in the market.

Yours respectfully,

JOHN G. HEWES.

MORO PHILLIPS.

ELKTON, Maryland, January 20th, 1866.

Dear Sir:—We have been selling your Super-Phosphate for the last three years, and are happy to say with entire satisfaction to our customers. From the universal approbation it receives from the farmers, and by the ever increasing demand, we consider it has no superior in the market.

Yours truly,

DAVID SCOTT & Co.

MR. MORO PHILLIPS.

VIENNA, Dorchester co., Maryland, February 1st, 1866.

Dear Sir:—Yours of the 18th inst. received. In reply I would say, that I have been using your Super-Phosphate for two or three years past, have also tried various other manufacturer's Super-Phosphates side by side with it, and from experience do not hesitate to recommend it as the best Super-Phosphate in the market.

Most respectfully,

GEO. J. MEEKINS.

FREDERICK, Maryland, January 24th, 1866.

PHILLIPS, Esq.

Dear Sir:—In reply to your inquiry of 18th, with regard to your article, "Moro Phillips' Super-phosphate of Lime," would beg leave to state, my customers, as heard from, have reported very satisfactory, and are much pleased with its effects upon their crops.

Yours respectfully, JONATHAN TYSON.

CECILTON, Maryland, February 1st, 1866.

MR. MORO PHILLIPS.

Dear Sir:—Your Super-Phosphate of Lime has given entire satisfaction in our neighborhood. I have not heard of any that have used it who have not spoken in the highest terms of it.

Yours very respectfully, JOHN T. WALMSLEY.

DENTON, Maryland, February 5th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—I have sold and used your Super-Phosphate for three years, side by side with most others in use here, and consider it equal to any and superior to most of them, and have not heard of any complaints from any one.

Respectfully yours, GEO. W. TAYLOR.

PORT DEPOSIT, Maryland, February 5th, 1866.

MORO PHILLIPS, Esq.

Dear Sir:—Your favor of the 17th January at hand. I can say, after using and selling your Phosphate for the last three years, that it has given entire satisfaction in every case, and our farmers are inquiring of us if we intend to keep it for the coming season.

Yours truly, DAVIS & PUGH.

ELLICOTT'S MILLS, Maryland, February 6th, 1867.

MR. MORO PHILLIPS.

Dear Sir:—We have been selling your Super-Phosphate of Lime for several years; all who have used it are very much pleased with its effect, and the demand for it is constantly increasing.

Yours respectfully, R. GAMBRILL & SON.

ABERDEEN, Maryland, January 23d, 1866.

Dear Sir:—In reply to yours of the 18th. We have used your Phosphate ourselves, and have had better crops from it than any other fertilizer we have used; and the

most of our customers speak in the highest terms of fertilizer. I consider it a first-class fertilizer for all kinds of Grain, also for Potatoes. I expect to continue to use it on my crops. Truly yours, J. & J. W. WELLS & C.

CECIL PAPER MILLS, Maryland, February 16th, 1866

MORO PHILLIPS, ESQ.

Dear Sir:—This is to say that I have used a large quantity of your manufacture of "Super-Phosphate of Lime," and that it has always given me satisfaction; and I further state that some of the best farmers in this vicinity have used it with very satisfactory results; indeed, it has a fine reputation here, and if there is a better article in the market I don't know it. I think it well adapted to the growth of vegetables generally.

I am very truly yours, J. D. CARTER.

CRANBERRY FARM, Harford co., Md., February 19th, 1866.

MORO PHILLIPS, ESQ.

Dear Sir:—I have duly received your favor; and in reply, I have, as you are aware, been yearly a purchaser of your Super-Phosphate for my two farms, and have also purchased for several of my neighbors. I consider it one of the best, if not the very best, fertilizer that has been used in our section of country for the different crops, if properly put upon the land; and my opinion is confirmed by the farmers for whom I have obtained it.

I shall use it, as liberally as I can afford, this spring, on Corn, Potatoes, &c., not doubting but that the result will repay me. Respectfully, your friend, EDW. B. DALLAM.

HILLSBOROUGH, Caroline county, Maryland.

Dear Sir:—It gives me great pleasure to inform you of the universal preference for your Phosphate over all others. In regard to my own experience with it, in the fall of 1864, I was induced by its dry and fine condition, compared with other Phosphates, to buy six tons for my Wheat crop, on which I applied about three hundred pounds per acre, and although I seeded the Wheat thinner where I used your Phosphate, yet in the spring of 1865 it was decidedly the thickest, and yielded double the amount of Wheat harvested from where Rhodes' Phosphate was used. I was so well pleased with the result that for the Wheat crop last fall I used only Moro Phillips' Phosphate, and advised my friends to do likewise. At this time, March, 1866, although we have had a dry fall, and a very hard winter, the Wheat is looking well where

Phosphate was applied, where it was not applied it looks poor, and is not half thick enough.

I have used in the last six years five different kinds of Phosphate, and also Whitelock's, Rhodes' and Baugh's Phosphate, and have obtained better results from Moro Phillips' Phosphate than any other. My own experience is corroborated by all the farmers in this county who have used your Phosphate. Hoping the above statement of facts may induce other farmers to use it, and find its value by their own experience,

Yours truly, WM. CONNOLLY, Jr.

ELLICOTT CITY, Maryland, January 16, 1868.

MORO PHILLIPS.

Dear Sir:—Yours of the 13th is received. We have been selling Moro Phillips' Phosphate for a number of years, and find that it has invariably given satisfaction. All who have tried it continue its use, which is an evidence of its being a good fertilizer. As our customers are pleased with it, of course we are continuing and will continue selling it.

Very respectfully yours, R. GAMBRIL & SON.

MOUNT AIRY, Carroll co., Maryland, January 14th, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—Yours of the 13th ult. is received. In reply to your inquiries in relation to the merits of your Super-Phosphate, I have to say, that I have sold to more than fifty farmers, not one of whom have ever complained of its merits. But all say that it is an A. No. 1 article, that it lasts longer than many of the fertilizers now in use. I have used it, and find it equal to any as a crop grower.

Very respectfully, H. BEESSARD.

BALTIMORE, January 15th, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—We have been selling your Super-Phosphate since it has been introduced in this market; have always had the most favorable accounts of it, and our sales last year exceeded any previous one, and would have been considerable more had you been able to fill our orders.

Yours, &c., C. W. SLAGLE & Co.,
Commission Merchants, 118 North street.

CHESAPEAKE CITY, Cecil co., Maryland.

MORO PHILLIPS.

You ask for my experience in using your Super-Phosphate of Lime. In 1867 I used sixteen tons, applying it to Oats, Potatoes, Corn, Vegetables, and Wheat, and

am satisfied from the results upon everything which I
that there is no better fertilizer in the market. I have no
tation in recommending your Phosphate as a most exce.
manure. Most respectfully, WESLEY CLAYTON.

BALTIMORE, January 30th, 1868.

MORO PHILLIPS, Esq.

Dear Sir:—In reply to yours, asking information as to the satisfaction Moro Phillips' Phosphate has given us and our customers, we would state, that all of your Phosphate sold by us has given general satisfaction.

Yours truly and respectfully,

WM. H. MICHAEL & SON.

LANDSDOWNE, January 27th, 1868.

MORO PHILLIPS.

Dear Sir:—I was from home when your letter arrived: hence it has not been answered before. In reply to your question, as to what satisfaction I have had from the use of your Super-Phosphate, I will say, that I have used it for the last four or five years, and, in comparison with other fertilizers, and have found it to be fully equal, and in most cases superior to them, in its action upon the Wheat crop.

I have used it myself, side by side with Reese's Manipulated, Rhodes', Baugh's Raw Bone, Jordan's, and soluble Pacific. I have seen it used in comparison with Turner's Excelsior and Whitelock's, which cost some sixteen or eighteen dollars more to the ton, with the result in favor of Moro Phillips'.

My uncle, in his lifetime, furnished his tenants with all of the leading manures—giving each tenant his choice of the different kinds. I think I am perfectly correct in saying that out of some twenty-two tenants, there is not one now who does not prefer Moro Phillips'. One of those gentlemen did not appear to be very favorably impressed with its action the first time he used it, but after a careful trial of it, in comparison with Turner's Excelsior, Berger & Butz' and Peruvian Guano, at the same cost to the acre, he was so well convinced, that he preferred yours for the last fall's seeding.

Yours truly,

PERI WILMER.

SYKESVILLE P. O., Howard co., Maryland, January 28th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—I received your letter, requesting my opinion of your Super-Phosphate. I have been a dealer in Guanos, Excelsiors and Super-Phosphates, of all kinds, for the last three years, in which time I sold more of your Super-

mate than any other kind I dealt in, and where I sold but bags of yours the first year, I sold tons the next. I also some twelve kinds upon my own farm. I found yours to be equally as good as those I paid from fifteen to twenty dollars more for per ton. I found it to act better upon the second crop, especially upon Grass, than any I have tried. I consider it the best and cheapest manure in the market. I intend using no other on my farm next spring and fall.

Yours respectfully, M. L. PARLETT.

GLEN COVE, near Darlington P. O., Maryland, January 23d, 1868.

MORO PHILLIPS, ESQ.

Dear Sir:—Want of time must excuse our procuring certificates, of farmers and others, of the action of your Super-Phosphate of Lime. But we assure you, its action is generally satisfactory to the agriculturalists who buy it from us.

Yours respectfully, R. J. JACKSON & Co.

STEWARTSTOWN, Maryland, January 16th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—Having used and sold your Super-Phosphate of Lime for several years, I want to say it has given the best satisfaction of any phosphate or patent manure in use in this section of country.

Yours respectfully, J. S. WINEMELLER.

MR. ROBERT SMITH writes from McSherryville, Md., January 23d, 1868, that he has sold more of Moro Phillips' Phosphate, last season, than any other or of all others put together.

SPORTSMAN'S HALL, Maryland, January 31st, 1868.

MORO PHILLIPS, ESQ.

Dear Sir:—After six years' experience with your Phosphate, alongside of most of the leading phosphates upon the market, I have found nothing to give so much satisfaction as yours, upon both Grain and Grass. I believe it to be as good now as the first I used, which I cannot say of many I have used; the land, after the second or third application, either becomes tired of them, or they are not kept to the same standard that they start with.

Respectfully yours, WM. J. PRICE.

GENERAL ASSEMBLY OF MARYLAND: SENATE, }
ANNAPOLIS, Maryland, February 13th, 1868. }

MORO PHILLIPS, ESQ.

Dear Sir:—Having uniformly used your Super-Phosphate for five years, I feel competent to speak of its good qualities; and having supplied it to my neighbors for three years, I can testify to its results in my community.

For myself, I can say it has generally given the most satisfactory results, which will account for my continued use of it and the increasing demand for it, year after year, from neighbors, speaks more forcibly than anything I could say, in the confidence it has created and maintained. It is acknowledged, generally, to be the best and cheapest grass and grain grower combined of any fertilizer in the market. Its action on Corn has been to me most satisfactory, paying me in one instance (as an experiment) \$100—on an outlay of \$16.80. The past season was the commencement of its use on Corn in my neighborhood, and I am satisfied it will commend itself, year by year, to increasing patronage on that crop, as it has already so successfully done on Grass and Grain.

Yours sincerely, O. HAMMOND.

WOODSTOCK, Howard co., Maryland.

MR. MORO PHILLIPS.

Dear Sir:—I take pleasure in recommending your fertilizer to the community at large, as I believe it to be the best now in use, and would say to all who wish to profit by tilling the land, use "Moro Phillips'." I have used it on my Wheat crop for the two last years, with entire satisfaction. It has proved itself to me to be the champion of all fertilizers; consequently, I think all farmers will do well to apply Moro Phillips' to their next crop. One of the prominent farmers of this county said to me, "it is the very thing we stand in need of for our land;" says he, "I have applied it beside of Peruvian Guano, with a decided contrast in favor of your preparation."

Yours, &c., WM. CLEARY.

CAMDEN, Delaware, February 15th, 1868.

MR. MORO PHILLIPS.

Dear Sir:—I would state, in reply to your inquiry respecting the use of your Phosphate, that I have used it for the last six years, and, according to my experience with other fertilizers, yours is the best in the market, and I would advise all farmers that are experimenting with fertilizers to purchase some of Moro Phillips' Phosphate.

Yours respectfully, HENRY C. COOPER.

HARTFORD, Connecticut, February 12th, 1868.

MORO PHILLIPS.

Dear Sir:—Having sold your Super Phosphate of Lime for several years, we are able to say, with confidence, that it is the best in the market.

Respectfully yours, SISSON & BUTLER.

SALEM, N. J., February 19th, 1868.

MORO PHILLIPS.

Dear Sir:—We send you a list of some of farmers that have used your Phosphate. We find it gaining favor more every day. We think we shall want not less than two hundred tons the present year.

LAWRENCE & BASSETT.

SALEM, N. J., January 28th, 1868.

We, the undersigned, having used several kinds of Phosphates, find Moro Phillips' equal, if not superior to any other kinds. It always has given entire satisfaction.

JOHN R. ZORNS,
ELISHA BASSETT,
DAVID F. GRIER,
ROBERT T. SEAGRAVE,
DAVID PETIT,
THOMPSON HINCHMAN,
CLARKSON PETTIT,
AARON A. FOGG,
HENRY M. RUMSEY,

SAMUEL T. LIPPINCOTT,
COLLINS ALLEN,
EDWARD W. FOGG,
BARCLAY GRISCOM,
RICHARD WISTAR,
SAMUEL P. ALLEN,
C. EDWIN BASSETT,
RICHARD FOGG,
JOSEPH H. FOGG.

VINELAND, N. J., February 17th, 1868.

MR. MORO PHILLIPS.

Sir:—I send you the names of some parties who have used your Phosphate, also what used for, which you are allowed to use as recommending it.

Lyman Haykes used it on Wheat, Rye and Corn, with good results, and would cheerfully recommend as being superior to any other used by him.

Thomas Bates used it on Strawberries and Truck, and considers it superior to all others.

Seneca Stafford used it on Truck and Strawberries, and considers it the best, having used nearly all kinds.

G. W. Chase used it on Corn and Potatoes, with *very* good results.

Yours truly, PECK & SMITH.

EAST WINDSOR HILL, Connecticut, February 12th, 1868.

MESSRS. SISSON & BUTLER.

Gentlemen:—I take pleasure in being able to testify to the superior fertilizing properties of Moro Phillips' Super-Phosphate of Lime. I have used it several years on my Tobacco crop, and find it gives the plants a good start by using a little in the hill when transplanting. It is the best I have ever used.

Respectfully yours,

C. W. CLAPP,

BRIDGEPORT, Connecticut, January

MORO PHILLIPS, ESQ.

Dear Sir:—It gives me much pleasure being able to say that your Super-Phosphate of Lime section of country gives better satisfaction than any that has been sold in these parts, and we could have sold much of it this season if we had been in a situation to keep it, but our other business was all that we could attend to.

Very respectfully yours,

IRA GREGORY & SON.

HARTFORD, Connecticut, January 22d, 1866.

MORO PHILLIPS, ESQ.

No. 27 North Front street, Philadelphia.

Dear Sir:—We have sold Moro Phillips' Super-Phosphate of Lime for the past four years, and it is with pleasure we are able to inform you, that the article has given universal satisfaction to our numerous customers. Some of the most intelligent growers of tobacco in the Connecticut Valley have used it by the side of Super-Phosphate of other manufacturers, and we believe in nine cases out of ten the preference has been expressed in favor of your article.

Yours truly, SISSON & BUTLER.

CONCORD, New Hampshire, January 22d, 1866.

MORO PHILLIPS.

Dear Sir:—In reply to yours, wishing to know what satisfaction your Super-Phosphate has given my customers, I would say, as a general thing, it has been very satisfactory; but owing to the extra cost of freight, it comes too high to make large sales here.

Very respectfully, GUST. WATKER.

CONCORD MILLS, February 6th, 1866.

MR. MORO PHILLIPS.

Sir —In answer to your inquiry respecting your "Phosphate," we answer that we have sold a considerable quantity of it within the last three years; that it has been used in the neighborhood by the farmers, in different ways, on their various crops; and that it has given very general satisfaction, and is still wanted and used by them. We have used it ourselves, and have seen a decided effect from it; it was entirely satisfactory to us. It being generally preferred over other "Phosphates," we have sold but little of any other kind for the last two years.

Very respectfully yours,

JOHN HILL & SON.

Extract from a Petersburg, Va., Paper.

PER-PHOSPHATE OF LIME.—Just received a lot of Phil-
 lips' Super-Phosphate of Lime direct from the manufacturer.
 Perhaps there is no fertilizer now used in this section superior
 to this, except Peruvian Guano. I have received and sold
 several lots of it, and have reports from two highly respectable
 gentlemen of Dinwiddie county, who have used it the past
 spring, and have bought it for Wheat this season; they speak
 in high terms of it. I beg to refer to Rev. H. B. CAWLES and
 Mr. S. S. NOTTINGHAM, both practical farmers."

GEORGE V. SCOTT.

Nottingham Station, Pa., 2d mo. 10th 1868.

We, the undersigned, citizens of this vicinity, do certify that
 we have used Moro Phillips' Super-Phosphate of Lime for the
 last two or three years, and consider it one of the best (if not
 the very best,) Phosphates in the market, for all kinds of
 grain, &c., &c.

SAMUEL W. PASSMORE,
 JOHN S. HILAMAN,

 TAYLOR PYLE.

Fredonia, Delaware, February 1868.

MR. MORO PHILLIPS.

Dear Sir:—Having for some time past been
 dealing in Phosphates but the uniform good quality of your
 Phosphate has given it the preference of any that I have sold,
 having never sold a ton to one but what has been well satisfied
 with it.

Yours very respectfully,

WILLIAM C. LONGFELLOW.

Baltimore February 12t.

MR. MORO PHILLIPS.

Dear Sir:—In answer to your inquiry as to the satisfaction Moro Phillips' Super-Phosphate of Lime, given my customers, I am pleased to say that the report from those who used it last Season, upon the various crops (especially Corn and Potatoes) are quite satisfactory.

Having for a number of years, sold this and other Phosphates, I can say that as far as I am informed yours stands as high in the estimation of Farmers as any of the leading fertilizers sold in this market.

Yours respectfully,

JOHN G. HEWES.

CORRESPONDENCE.

Frederick, Md., February 24th, 1868.

Messrs. CASTLE & MAUGHT, says that Moro Phillips' Phosphate of Lime, have given more general satisfaction than any other in this market. We have sold it for three seasons, and its reputation is better now than when we first sold it. Farmers almost invariably tell us that its effect upon the Wheat crops is better than any other at any-thing near the same cost, and a number have told us they tried it side by side with the highest priced fertilizers in the market, and were satisfied it acted equally as well, and in some instances even better than those costing \$10 00 or \$12 00 more per ton, in fact the general impression is that there has been a considerable improvement on it since it was first introduced, and although there was but little manufactured phosphate sold here last season, in consequence of the Farmers manufacturing for themselves, we sold more of *Moro Phillips' Phosphate*, than of all others put together.
